

Clark Forklift

Clark Forklift Forklift Training - Currently, there are at least 350,000 Clark lift trucks performing globally, and more than 250,000 in use in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual items fabricated for 20 distinctive models of lift trucks and automated equipment. Your local Clark Supplier is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark features a exceptional Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very amazing worldwide support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark has a relentless mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Lean Production

Clark has selected the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most effective approaches of manufacturing facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Engineering

Clark's product engineers and suppliers join together to improve the proficiency and brilliance of their products while minimizing costs. The contemporary value engineering agenda combines progressive product growth and provides superior consumer support and service within the industry.
